12 MONTHS | BLENDED | ONLINE | WEEKEND LEARNING

A MUNJAL GROUP, ICME & ADITYA UNIVERSITY INITIATIVE

Director's Message

Gaurav Munjal
Director, EdutechNest

Dear Colleagues,

It is with great pleasure that I share the launch of our one-year online Post-Graduate Diploma Programs at EdutechNest, an initiative by the Munjal Group and Indian Centre for Research and Manufacturing Excellence (ICME). These programs have been carefully designed to address the evolving needs of industry professionals and engineering students, equipping them with the necessary skills and knowledge to excel in their respective domains.

In today's dynamic environment, continuous learning is imperative. Our diplomas serve as conduits between academic theory and industrial practice, perfect for professionals aiming to upgrade their skills or students stepping into the professional realm.

Our advantage lies in our commitment to quality and forward-thinking. In partnership with industry leaders and esteemed academics, we have crafted a curriculum that is relevant today and adaptable for tomorrow. Our courses cover the latest in technology and industry developments, ensuring you are well-prepared for the future.

We recognize the importance of flexible learning. Our programs offer a mix of online classes, interactive workshops, and practical projects, allowing you to learn without compromising your work or personal life. Our faculty is committed to guiding you at every stage.

As we embark on this exciting journey, I am confident that our programs will be instrumental in your growth. EdutechNest is here to support your career goals or personal passions.

I extend my heartfelt gratitude to our esteemed partners, faculty members, and students for their unwavering support and enthusiasm. Together, let us chart a course toward a brighter future filled with boundless opportunities.

UNIVERSITY

Aditya University Pro - Chancellor Message

Dr. N. Satish Reddy
Pro- Chancellor
Aditya University

Dear Colleagues,

Being a direct descendant of Aditya, I am cognizant of the arduous efforts my father exerted to establish Aditya on the academic landscape of the nation during its numerous expansion phases, despite the most trying circumstances.

Having earned my master's degree from UTS Australia, the preeminent institution on the continent, I now have a more profound comprehension and discernment of the education system. This, in conjunction with my father's ideology, empowered me to assume the responsibility of guiding Aditya.

Founded on the tenets of quality and excellence, Aditya University (formerly known as Aditya Engineering College), Surampalem provides professional education in the fields of engineering, technology, management, and pharmacy.

The campus has come a long way since its 2001 founding thanks to its steadfast dedication to educating students in science and technology and enriching human knowledge. The primary objective of the institution is to ensure that academic pursuits have real-world applications.

Aspiring students can find a wealth of resources on campus that will serve as a solid foundation for their future careers in business. With its many programmes, T-Hub exemplifies the boundless possibilities available to students today, including internships on campus, opportunities to build partnerships with corporate and industry giants, and the competitive inputs necessary to become T-shaped engineers.

Making the campus the "first stop" for companies in recruiting is Aditya's ultimate goal. Because of this, the training and placement cell is very careful to mould students into workers that meet the demands of the market.

We place a lot of focus on students' overall personal development because we know that the demands of the workplace go beyond rote memorization and grades. Many student-run organisations and annual events, such as VEDA (the technical fest) and COLOURS (the youth fest), serve to foster and showcase students' hidden talents.

Finally, a desire can change nothing, a decision can change something, but a determination can change everything. For sure Aditya is strongly determined to provide its students a successful career. Wish you good luck.

Director's Message

Ravinder Kumar
Director, EdutechNest

Dear Colleagues,

We're thrilled to announce the inauguration of our one-year online Post-Graduate Diploma Programs at EdutechNest, a pioneering venture brought to you by the esteemed collaboration of the Munjal Group and the Indian Centre for Research and Manufacturing Excellence (ICME).

Globalization of the markets has put great Competitive pressure on the Manufacturing and Service Industry. The key to sustained economic success in Today's VUCA World will be consistent upgradation of Skills & Capabilities at the Individual Level and Organizational level. Though the Indian Government is emphasizing 'Make in India', at the same time the Skill gap between Industry Professionals and Engg students is increasing each passing year leading to an increase in the Cost of Manufacturing & Services, due to evolving Technologies, Systems, and Practices. A fine chisel is recognized by its cutting Edge, it makes no difference how finely it is made what splendid steel it has, or how well it is forged- if it has no cutting Edge.

"Cutting Edge is the Key"

Diagnosis of problems in Business, It's Measurement, Analysis, and solving, are the Keys to Today's Business requirements. Edutechnest -Programs are designed to develop the Cutting Edge of Professionals in Diagnosis, Measurement, Analysis, and practical Solution Development Models using the right "Japanese Tools and Techniques" after practically implementing them in 500+ organizations globally in 30+ Business Sectors.

Career Growth.

Enhanced Skills on Opex Latest Tools & Techniques.

Sharing of Best Case Studies on Opex.

Use of Data Analytics on day to day problems.

Recognition & Continuous Improvement in organization.

Competitive Advantage.

Better Job opportunities than MBA(PGDBA).

Becoming a Certified Trainer.

Strategic Alignment in Business.

Business Orientation.

LEARNING OUTCOME OF THE PROGRAMME

Advanced Understanding of Operational Excellence.

Application of Industry Best Practices.

Problem-solving and Decision-making Skills using Data Analytics.

Leadership and Change Management.

Quality Management and Process Improvement.

Risk Management and Compliance, Intellectual Property Rights (IPR) Knowledge.

Project Management.

Communication and Stakeholder Engagement.

Technology Integration.

Continuous Learning and Professional Development.

One-year Post Graduate Diploma in Operational Excellence

Operational excellence is a strategic approach for continuously improving processes and systems within an organization to improve Productivity, Quality, Cost, Delivery, Safety, Morale & Environment, and customer value. It involves minimizing waste, reducing costs, increasing productivity, and fostering a culture of continuous improvement, leading to the growth of the organization's Top line and Bottom line & employees with a Win-Win model.

Programme Highlights

**Comprehensive
Curriculum**

**Intellectual Property
Rights (IPR)**

**Weekend
Learning Options**

**Hands-On Workshops
& Simulations**

**Project-Based
Learning**

**Expert Industry Faculty &
Consultants from leading
consulting firms**

Guest Lectures

**Interactive Learning
Environment**

**Industry Best Case
Studies and Practices**

Data Analytics

Career Growth

Job Assistance

1)

- **Introduction to Operations Management:**
- **Lean Six Sigma Fundamentals:**
- **Operation Strategy- Business MIS & Building MIS- Dashboards:**
- **Team Management for OPEX Projects:**

- Overview of key concepts and principles in operations management.
- Understanding the role of operations in organizational success.
- In-depth study of Lean and Six Sigma methodologies.
- Application of DMAIC (Define, Measure, Analyze, Improve, Control) process.
- Understanding Business MIS.
- Review models for business MIS- Dashboard.
- OPEX planning, scheduling, and resource allocation.
- Risk management and execution strategies.

Advanced Operational Excellence Techniques

2)

- **Advanced Lean Six Sigma Applications:**
- **Data Analytics and Business Intelligence:**
- **Supply Chain and Logistics Management:**
- **Technology in Operations:**

- Advanced statistical tools for process improvement.
- Utilizing data analytics to identify improvement opportunities.
- Introduction to business intelligence tools for decision-making.
- Optimization of supply chain processes.
- Inventory management and demand forecasting.
- Integration of technology for operational efficiency.
- Industry 4.0 and its impact on operations.
- Intellectual Property Rights(IPR)

Implementation and Strategic Leadership

3)

- **Continuous Improvement Strategies:**
- **Strategic Operations Management:**
- **Organizational Development**
- **Capstone Project:**

- Strategies for sustaining operational excellence.
- Kaizen principles and culture development.
- Aligning operations with overall organizational strategy.
- Balancing cost, quality, and innovation in operations.
- Understanding and managing organizational change.
- Overcoming resistance and fostering a culture of continuous improvement.
- Integration of learning through a real-world project.
- Presentation of findings and recommendations.

Our teaching methodology emphasizes high interactivity, technological integration, and the use of a wide array of pedagogical tools. This includes engaging discussions centered around key concepts, brought to life through real-world industry cases, interactive simulations, and hands-on activities.

Programme Delivery

The program sessions will utilize a cutting-edge Interactive Learning (IL) platform, using LMS (learning management system) providing Direct-to-Device (D2D) access via Desktop, Laptop, or Tablet for learners' convenience. Additionally, Chamber consulting services will be gradually introduced, allowing participants to address real-world challenges in operations management. These challenges may encompass project management, Lean/Six Sigma, or operations/supply chain issues relevant to participants' organizations or personal interests.

Online Session

Application Closure Date

31st of May, 2024

Programme Start Date

15th of June, 2024

Programme End Date

14th of June, 2025

Weekly Schedule

3 online sessions
(60/90/90 minutes)

Day & Timing:

Saturday: 6:00 PM - 7:30 PM
Sunday: 10:30 AM - 1:30 PM

Duration

12 Months

Capstone Project

The 2-3 day industry-campus module at EdutechNest provides a condensed, hands-on learning experience that connects academic theory with practical industry insights. Through immersive sessions both on-campus and in industry environments, participants gain exposure to real-world challenges and emerging trends relevant to their field. The curriculum focuses on key concepts and practical skills, bridging the gap between academic knowledge and industry practices.

Eligibility Criteria

- Bachelor's degree or equivalent from a recognized university in any discipline.
 - Participants who are not currently working, are also eligible to apply for the program.
- * Internship and training experience is not included in full-time work experience.

Who Should Attend?

Practitioners in manufacturing, project management, services, or logistics sectors and people aspiring to be a part of these sectors.

Admission Criteria

Participants would be selected from corporate nominations and self-sponsored individual applicants based on their overall profiles and credentials.

Attendance Criteria

A minimum of 75% attendance is a prerequisite for the successful completion of the program.

Mr. Ravinder Kumar
Director, EdutechNest

With over 25 years of expertise in Business Consulting, Technical Education, and Manufacturing, he served as Director & Head of Manufacturing Excellence at CII Centre for Competitiveness, Chandigarh. Adept in Operational Excellence, he's published articles in leading national newspapers. Holds B.Tech in Mechanical Engineering, PG from IIM Trichy in Strategy Management, and certifications from JIPM, Japan, and Federal Ministry of Commerce & Technology, Germany. Collaborated with UNIDO, UNDP, WWF, and Bill Gates Foundation. Consulted 500+ companies, trained 30,000+ professionals, and worked with benchmark companies like Toyota, BMW, and Mercedes. Assessed CII and ACMA Annual Awards at the National Level.

Experts Faculty Members (Consulting Domain)

Dr. Dharmvir is a seasoned professional with 29 years of expertise in Lean Kaizen implementation across diverse industries in India and abroad, primarily in the auto sector for 18 years.

(For a detailed profile please scan the QR code.)

Dr. Dharmvir Uppal
Business Coach, Data Analyst

Mr. Amit Sanghvi, Principal Counselor at ICME, brings over 31 years of industry experience. Before ICME, he served as Head of Operations at M/S Poly Plast Chemi Plants India Pvt Ltd, Vadodara, and worked for 16+ years at the Confederation of Indian Industry (CII), focusing on enhancing competitiveness in Indian industries.

(For a detailed profile please scan the QR code.)

Mr. Amit Sanghvi
Principal Counselor

Experts Faculty Members (Professors)

Dr. P.S. Ranjit

Professor, Aditya University

Dr. P.S. Ranjit, Board of Studies Member of Jawaharlal Nehru Technological University, Kakinada (JNTUK). SAEINDIA Faculty Development Core Committee Member, SAEINDIA Amaravathi Division MC Member, and had more than 22 years of teaching experience in both U.G. and P.G. programmes and 15 years of research experience along with 10 years administrative experience as head -Automotive Design Engineering at UPES, Dehradun. Dr. P.S. Ranjit is presently associated with Aditya University since 2018 and member of many professional bodies.

(For a detailed profile please scan the QR code.)

Prof. Annemneedi Lakshmanarao

Professor, Aditya University

Prof. A.Lakshmanarao, who is currently pursuing his Ph.D. at Andhra University, Vishakhapatnam (thesis already submitted), has 15 years of teaching experience. He completed his M.Tech in Software Engineering from Godavari Institute of Engineering & Technology (GIET) and a B.Tech in Computer Science and Information Technology from B.V.C. Engineering College.

(For a detailed profile please scan the QR code.)

Experts Industry Members

(Guest Faculty)

Various guest faculty from diverse fields such as engineering, automotive, leather, white goods, construction, etc., will join to share their best case studies with the students. This collaborative approach enriches the learning experience by providing real-world examples and insights from different industries, enhancing the student's understanding and perspective on various subjects.

Certification

- Students who complete the programme and fulfill all the prescribed requirements will be awarded a 'Certificate of Completion'.

Assessment & Evaluation

- The evaluation methodology is at the discretion of EdutechNest faculty. The methodology includes online exams, written tests, assignments, and any other component as decided by EdutechNest faculty.
- The programme may require participants to work on individual/group assignments and/or projects. The main objective of such assignments/projects will be to help the participants apply their conceptual learning in the programme to actual organizational decision scenarios.

Munjal Group

Committed to delivering excellence through its top-quality products, the Munjal Group is a multifaceted global enterprise with diversified interests such as EVs, exports, bicycles, healthcare, and real estate. The Group has a global footprint with a presence in more than 80 countries for its bicycles, and 36 countries for its future-oriented electric bikes, making it one of the top bicycles and electric bike manufacturers in the world. The Group takes pride in creating products that are designed by keeping sustainability in mind.

Through its various endeavors, the Group has emphasized its commitment to a sustainable and green planet. To this end, the Group initiated the development of the Electric 2-wheeler (E2W) business in India in the year 2000 and subsequently launched its first battery-fitted Cycles and first electric scooter in the years 2003 & 2007 respectively. All its ventures follow the legacy of creating products that are future-oriented and have been designed keeping sustainable means in mind.

Indian Centre for Research
and Manufacturing Excellence

About Indian Centre for Research and Manufacturing Excellence (ICME)

Indian Centre for Research and Manufacturing Excellence (ICME) is one of the top 10 Manufacturing Consultants in India. We have drawn inspiration from Japan's SME industry model, which involves regional ministries solely dedicated to industry-focused universities. Our enthusiasm for the Japanese approach extends to integrating their practices. Indian Centre for Research and Manufacturing Excellence (ICME) was established in 2014 and is working together with more than 500+ Manufacturing, Education, and Service Industries PAN India in different Sectors to Make them Competitive so that they can grow from Small to Medium and Medium to Large with an Increase in Profitability via -

- Specialized Training
- Profitability Improvements
- Plant Layout Design with Process Engineering
- Cluster Programs (Operational Excellence)
- Conferences and Summit

ICME

EMPOWERING BUSINESS GROWTH FROM SMALL TO LARGE

Ravinder Kumar
Managing Director

India's economic resilience in Q1 FY23, surpassing the UK, highlighted its global prominence in the post-COVID-19 era. Today, it is the 5th largest with a GDP of \$3.7 trillion (as of FY24). This positive trajectory is driven by increased employment, a surge in private consumption, and favorable consumer sentiment. However, within the industry, the crucial need for manufacturing consulting has become apparent. Companies are recognizing the vital role of specialists who provide tailored strategies and insights. In this ever-evolving landscape, expert guidance has become invaluable, empowering companies to navigate complexities, make informed decisions, and stay ahead of industry trends.

The Indian Center for Research and Manufacturing Excellence (ICME) plays a key role in guiding companies through the growth stages, facilitating their transition from small to medium and eventually to large scales. Its focus extends across a broad spectrum of services to address varied needs. With a rich history of collaboration with over 500 companies in the past 16-17 years, the organization's evolution is remarkable. It commenced its journey by serving through CII (Confederation of Indian Industry) and subsequently established its independent entity in 2014. This progression underscores

the center's steadfast commitment to providing comprehensive support, significantly contributing to the growth and development of businesses in India.

Specializing in Operational Excellence

Guiding clients in the implementation of strategic processes, ICME is a global consulting firm specializing in operational excellence. Its primary objective is continual revenue acceleration, impacting both the top and bottom lines. Through a Japanese-inspired, holistic, systematic, and scientific approach, ICME integrates training, consulting, coaching, and diagnostics seamlessly. This unique methodology is crafted to support the growth journey, ensuring a smooth transition from a small to medium enterprise and then to a large one for sustained and robust expansion. ICME's emphasis on addressing invisible losses aims to enhance productivity, quality, costing, R&D, and layouts. This comprehensive approach results in a 5 percent or more improvement, making companies more profitable and globally competitive.

"In my view, the critical aspect is whether companies are taking the right steps for their growth, be it in pharma, auto, or the white goods industry. It is not only about excellence but also consistency and adaptability. Companies need a 360-degree perspective, evaluating each vertical, from R&D to manufacturing, marketing, and new business development. Each department functions like a cricket team, where every player must give their best for collective victory," says Ravinder Kumar, Managing Director of ICME.

Integrating Japanese Approach

Responding to the increasing demand for an industry-oriented curriculum, ICME has collaborated with multiple

universities. This partnership aims to produce graduates who are well-prepared for the workforce, leading to improvements in campus recruitments. "We have drawn inspiration from Japan's SME industry model, which involves regional ministries solely dedicated to industry-focused universities. Our enthusiasm for the Japanese approach extends to integrating their practices. These principles have been effective in enhancing business excellence across various domains," adds Ravinder.

We have drawn inspiration from Japan's SME industry model, which involves regional ministries solely dedicated to industry-focused universities. Our enthusiasm for the Japanese approach extends to integrating their practices

In today's VUCA world, the ability to adapt swiftly is not just a requirement but a guiding principle across various sectors, including consulting. Embracing this imperative, ICME is introducing innovative industry-focused courses that mark a significant shift in the education landscape. Strengthening its ties with esteemed institutions like IITs, it actively engages in diverse courses and seminars. Transitioning from theoretical foundations to practical applications, its commitment lies in offering courses that directly tackle real-world challenges, covering areas like preventive maintenance, machine redesigning, and the integration of cutting-edge technologies such as Industry 4.0, AI, and big data science to elevate machine efficiency. ■
